Profile

Email: pjinadu02@gmail.com

Portfolio: Peace Jinadu-Paul

Github: Pappyjay23

LinkedIn: Peace Jinadu-Paul

I am a creative and detail-oriented front-end developer with experience building and maintaining responsive websites. I am proficient in **HTML**, **CSS**, **JavaScript**, and **React**, along with modern libraries and frameworks.

I am driven by a passion for creating exceptional user experiences. My strong design background and proficiency in tools like **Adobe Photoshop** and **Figma** enable me to seamlessly integrate aesthetics with functionality. Colleagues and clients consistently praise my reliability, strong work ethic, and ability to deliver projects effectively. I am committed to delivering exceptional results that not only meet but exceed the highest standards in web design, user experience, and overall performance

—

Experience

Vinhood - Milan, Italy

Front End Developer
Remote
March 2023 - April 2024

- I created dynamic, visually appealing features using React.js, ensuring responsive and engaging user interfaces.
- I developed reusable components and application screens, optimizing them for peak performance across various devices and browsers.
- I collaborated closely with a team of developers and UI/UX designers to create a new design system and redesign the product, leading to the successful launch of V2, which effectively transformed the application for users across multiple countries.
- I actively participated in code reviews and committed to maintaining high coding standards and best practices.

Hotels.ng (HNG) - Lagos, Nigeria

Front End Developer
Remote
October 2022 - December 2022

- I translated designs and wireframes into high-quality, functional code using React.js and related technologies, ensuring a seamless user experience.
- I debugged and resolved front-end issues, enhancing application stability and improving overall user satisfaction.
- I worked with version control systems to maintain codebase integrity and foster effective collaboration within the development team.
- I successfully collaborated with developers, project

managers, and designers to build and deploy "Catchup," a live application that helps people schedule events with friends and family. The project received positive reviews for its performance and user experience.

Fiverr
Freelance Developer & Designer
December 2021 - February 2022

- I developed and designed custom solutions for a diverse range of clients, including websites, applications, and digital assets.
- I ensured project stability and fostered effective teamwork through diligent version control practices.
- I conducted thorough debugging and performance optimizations to improve application reliability and efficiency.
- I collaborated with clients to understand their needs, provided regular updates, and ensured the timely delivery of high-quality work.

Printek Graphics Limited - Nigeria
Graphic Designer
December 2017 - February 2018, November 2021 - January 2022

- I managed client proposals and developed engaging concepts, graphics, and layouts, tailoring solutions to meet client needs.
- I liaised with external printers to ensure high-quality production and timely delivery, maintaining project standards and deadlines.
- During my time at the company, I boosted client transactions by an average of 25% through effective design solutions and strategic project management.

Education

Obafemi Awolowo University (Nigeria)

BSc. Computer Science and Engineering

September 2018 - December 2023

Relevant Coursework: Operating Systems, Databases, Website Design, Algorithms, Computer Architecture, Calculus.

Activities: Google Developer Student Community.

Responsive Web Design

Free Code Camp

April 2020 - June 2020
