Summary

"**Data Scientist Turning Data into Stories**
Passionate about uncovering insights hidden in data, I excel in Python and SQL to build machine learning models and impactful visualizations. From taming messy datasets with Pandas to crafting actionable solutions, I thrive on solving real-world problems and transforming complexity into clarity."

Education:

- Faculty of Navigation Science and Space Technology

  2021 - 2026 Beni-Suef University

Skills:

Technical Skills:

1. **Programming Language**
   - SQL
   - PYTHON
2. **Data Analysis and Manipulation**
   - Pandas, NumPy (Python)
3- **Data Visualization**
   - Matplotlib, Seaborn, Plotly (Python)

4- **Version Control**
   - Git
   - Git hub

Soft Skills:

1. Problem-Solving
2. Presentation
3. Communication
4. Critical Thinking

Languages:

Arabic: Native   English: Upper-Intermediate (B2)

Experiences:

- **Digital Egypt Initiative (DEPI) (1 year)**
