PROFILE

I am a creative and detail-oriented front-end developer with experience building and maintaining responsive websites. I am proficient in HTML, CSS, JavaScript, and React, along with modern libraries and frameworks.

I am driven by a passion for creating exceptional user experiences. My strong design background and proficiency in tools like Adobe Photoshop and Figma enable me to seamlessly integrate aesthetics with functionality.

Colleagues and clients consistently praise my reliability, strong work ethic, and ability to deliver projects effectively. I am committed to delivering exceptional results that not only meet but exceed the highest standards in web design, user experience, and overall performance

---

EMPLOYMENT HISTORY

Mar 2023 — Apr 2024

Front End Developer, Vinhood

Milan, Italy

Remote

As a Front End Developer:

- I created 20+ dynamic, visually appealing features using React.js, ensuring responsive and engaging user interfaces that significantly improved user satisfaction, as evidenced by the migration of the V2 design to clients in 5+ countries. This effort also achieved 98% responsive design compliance across devices.
- I developed numerous reusable components and application screens, optimizing them for peak performance, resulting in a 35% reduction in load time for key pages across various devices and browsers.
- I collaborated closely with a cross-functional team of developers and UI/UX designers to create a new design system and redesign the product, leading to the successful launch of V2 across 5+ countries, which effectively transformed the application for users with a 30% reduction in design inconsistencies
- I actively participated in code reviews and committed to maintaining high coding standards and best practices, contributing to significant improvements in code quality and reduced bug reports during my tenure

Oct 2022 — Dec 2022

Front End Developer, Hotels.ng

Lagos, Nigeria

Remote

As a Front End Developer:

- I translated designs and wireframes into high-quality, functional code using React.js and related technologies, delivering 10+ key features with 95% design-to-implementation accuracy and ensuring a seamless user experience
- I debugged and resolved 30+ front-end issues, enhancing application stability and achieving an improvement in page load performance and overall user satisfaction
- I worked with version control systems to maintain codebase integrity, manage successful merges, and foster effective collaboration within the development team
- I successfully collaborated with a team of 8 developers, 3 project managers, 5 designers, and some backend developers to build and deploy 'Catchup,' a live application that helps people schedule events with friends and family, receiving positive feedback for its performance and user experience

Dec 2021 — Feb 2022

Freelance Developer & Designer, Fiverr

Remote

As a Freelance Developer & Designer:

- I developed and designed custom solutions for a diverse range of clients, including websites, applications, and digital assets.
- I ensured project stability and fostered effective teamwork through diligent version control practices.
- I conducted thorough debugging and performance optimizations to improve application reliability and efficiency.
- I collaborated with clients to understand their needs, provided regular updates, and ensured the timely delivery of high-quality work.

| Dec 2017 — Jan 2022 | **Graphic Designer, Printek Graphics Limited** | Nigeria |

On-site

As a Graphic Designer:

- I managed client proposals and developed engaging concepts, graphics, and layouts, tailoring solutions to meet client needs.
- I liaised with external printers to ensure high-quality production and timely delivery, maintaining project standards and deadlines.
- During my time at the company, I boosted client transactions by an average of 25% through effective design solutions and strategic project management.

SKILLS & TOOLS

HTML	Figma
CSS	Adobe Photoshop
Javascript	Jest
Typescript	React Testing Library
React.js	Redux
Next.js	Context API
Vue.js	Pinia
React Native	Google Cloud Platform
TailwindCss	Vercel
Sass	Responsive Design
Bootstrap	SEO Optimization
Material UI	Clear Communication
Styled Components	Organization
NativeWind	Problem Solving
Firebase	Attention to Detail
Git	Adaptability
GitHub	

EDUCATION

| Sep 2018 — Dec 2023 | **BSc., Obafemi Awolowo University** |

Relevant Coursework: Operating Systems, Databases, Website Design, Algorithms, Computer Architecture, Calculus.

Activities: Google Developer Student Community.

LANGUAGES

English	French
